

BullTide is wishing you a wonderful Christmas and a clean & pandemic-free 2021

May I recommend our cold power cleaning in cold water. The only thing that shrinks and fades is your utility bill

Every customer-owned garment deserves high quality treatment as if it were mine

I highly recommend our soft linen cleaning adding that extra splash of brightness

Our high-end laundry machines can handle every garment: silk, cotton or money in every currency

We prefer wrinkles on our faces instead of in the laundry. And please remember: wash dry and fold

WASHING & DRYING INSTRUCTIONS

- Do not overload the machines.
- Select washer temperature desired.
- Select dryer temperature desired.
- **NO DYEING** of clothes permitted.
- Please leave the machines clean.

USE CAUTION:
Most of today's garments are made of synthetic materials and are easily damaged by improper laundering. Clothes that are washed in water that is too hot or over dried in a dryer may shrink, melt, or change color.

WARNING!
Use Washers And Dryers At Own Risk
For Loss Or Damage Of Clothes

BL441

Dirty Laundry ist cool!
